## Doctor Belt

**News: At no great expense.**

### Conveyor Belt Manufacturing: The facts

Production of conveyor belts in the Northern Hemisphere is more costly because of the transporting of raw materials to those plants. Labour is also more expensive because standards of living, of the work force, are higher than those of the people in the Tropical countries.

*The source of conveyor belting manufacturing components to the Northern Hemisphere come from Tropical land countries around the globe. We have never seen a rubber tree plantation, e.g in Holland, only **TULIPS!!***

So in simple terms, the manufacturers in the Tropical areas use the exact same materials as here in the Northern Hemisphere. They have laboratories under law and comply to strict health & safety standards in manufacturing. All conveyor belts, like for like in spec, are the same quality. It is marketing strategy that increases / inflates the price. It can't be said because a belt is ridiculously dearer, it is a better belt.

**Lets deal in facts and not trumped up spoo!!**

***That's why our customers keep coming back to us for the best available and consistent, quality belts & advice!!***

*Late evening - Night orders, Early morning direct deliveries our speciality*

## NEW PRODUCT

**Profitability and ease of working with the KX-Energy Wood Grapples.** The KX-Energy grapple is suitable for farmers, forest service entrepreneurs, earthmoving entrepreneurs, and green entrepreneurs.

- ✓ The KX Energy Grapple is extremely easy to use
- ✓ An economical and cost-effective choice
- ✓ Lightweight, powerful and fast to use
- ✓ Thanks to the modular design, the grapple parts can be replaced.
- ✓ The KX energy grapple is a long-term purchase
- ✓ Quick-release blade, the grapple is also ideal for loading

## RAPID PAN & PLANETARY CONCRETE MIXERS

The heart of the batching plant, Rapid's range of Pan and Planetary concrete mixers are the choice of many of the world's leading concrete and construction companies.

With 13 different models, offering outputs from 0.375m<sup>3</sup> - 4m<sup>3</sup> per hour, Rapid Pan and Planetary mixers offer flexibility for every application, large and small.

- Optional number of discharge doors
- Easy mixer access for maintenance
- Manufactured in Northern Ireland
- Large spare parts inventory - same day dispatch
- UK chill cast floor and wall tiles
- Optional high pressure washout system
- Compact design - easy plant integration.

### ABOUT US

Machine Plant Fitters (MPF), was established in 2010. We are a maintenance and service provider for all heavy plant machinery. We have four experienced and insured mobile mechanics, that are fully equipped to deal with any type of breakdown & maintenance scenario.

We service and maintain...

**Hitachi**  
**Komatsu**

**Volvo**  
**Bomag**

**Thwaites**  
**Terex**

machines to name but a few.

### MACHINERY

We have diagnostic software for all plant machinery.

#### MAIN APPLICATIONS

- |  |   |
|--|---|
| <input checked="" type="checkbox"/> ALL BRANDS OF EXCAVATORS | <input checked="" type="checkbox"/> LOADING SHOVELS   |
| <input checked="" type="checkbox"/> DUMPERS                  | <input checked="" type="checkbox"/> BULL DOZERS       |
| <input checked="" type="checkbox"/> DUMP TRUCKS              | <input checked="" type="checkbox"/> REFUSE COMPACTORS |

We also specialise in the service and repair of Jenbacher gas generator engines.

### Parts

We provide parts for all makes of machinery as we have a large network of international suppliers.

### SERVICES

We also provide a diagnostic service for all Volvo, Hitachi, Fuchs and Bomag machinery & Deutz engines.

As well as offering short and long term contracts, all our services are available to one off customers.

## IMS BP1200-9TB Mobile Blender

The BP1200-9TB Mobile Blender has been developed by IMS to meet the many applications where blending of material is essential. It can be used in applications where high volumes are required and is capable of producing up to 1000tph of blended material. Where more refined mixing is required, the unit is equipped with a mixing chamber with rotating mixer shaft to thoroughly blend mulch, topsoil, sand, etc. for use in lawn development, golf courses, and similar applications

Email us at: [info@ormondemachinery.com](mailto:info@ormondemachinery.com)

### Key Features:

- ⊗ High capacity up to 1000tph (1102 US tph).
- ⊗ Eliminates the need for manual mixing and blending - reduces labor hours, maintenance costs and fuel consumption.
- ⊗ On site set up in less than 30 minutes.
- ⊗ Can accept loads from multiple sources.
- ⊗ 10m³ and 12m³ high capacity hoppers.
- ⊗ Variable speed belts to allow for defined material ratio.
- ⊗ Impact rollers and removable fall break in hoppers

**Liugong 939E X Evoquip Cobra 290R**  
Liugong 939E is a powerful and versatile excavator that is designed for tough jobs in construction, mining, and other industries. With its durable construction and high-performance engine, the 939E can tackle even the most challenging tasks with ease. The machine is equipped with advanced features

such as hydraulic control, a comfortable operator cabin, and a range of attachments for increased versatility.  
On the other hand, Evoquip Cobra 290R is a compact and mobile impact crusher that is ideal for recycling applications and smaller construction projects. Despite its size, the 290R packs a punch with

its high crushing ratio and efficient performance. The machine is easy to transport and set up, making it perfect for on-site crushing jobs. In addition, the Cobra 290R is equipped with innovative features such as a variable speed rotor, a hydraulic crusher setting adjustment, and a dual-slope screen for increased efficiency.

Both the Liugong 939E excavator and Evoquip Cobra 290R impact crusher are reliable and efficient machines that can help boost productivity and streamline operations in various industries. With their advanced features and robust construction, these machines are sure to deliver exceptional performance even in the most demanding working conditions.
